INTERESTING ITEMS FROM EL VERANO AND VICINITY.

Weekly Record of all the Happenings in His Town as Faithfully Recorded by Our Wide-Awake Reporter, "Archie McKiver."

About .50 inches of rain fell here Sunday night.

E. E. Harris was a visitor to the county seat Tuesday.

Miss Ruth Riser of Oakland visited her folks here Tuesday.

Jack Henderson, formerly of Sonoma but now of San Francisco, was in town Sunday.

E. Steckmeyer of Oakland was visiting his brother in this place the fore part of the week.

Dutch and John Vincent have gone to San Francisco where both have secured employment.

Miss Hilda Goebel, a charming young girl of San Rafael, visited friends in this place Sunday.

F. A. Riser took Thursday morning's Southern Pacific train for the southern part of the state.

James M. Oliver, the San Francisco attorney, was a guest at the L. L. Lewis ranch the fore part of the week.

Miss Nellie O'Brien of San Francisco was in town Monday on business connected with the Lewis-O'Brien water rights suit.

Albert Dutil of San Anselmo, after a visit of several weeks with relatives here, returned to his Marin county home Thursday.

Leo. Baines went to San Francisco Sunday morning where he attended to business connected with his garage at this place.

Mr. and Mrs. J. K. Bigelow, accompanied by the Misses Kenyon, went to San Francisco Tuesday to take in the President Taft reception.

The amendments election passed off quietly here Tuesday. There was little or no excitement and the only thing to disturb the equanimity of voters was a few heated arguments over the woman suffrage business. Otherwise the town was exceedingly quiet and on Wednesday went into mourning over the apparant defeat of the ladies.

Deputy District Attorney Jack Ford of Santa Rosa passed through here Wednesday afternoon en route to Sonoma.

The vote in this precinct on the woman's suffrage amendment in Tuesday's election was as follows: For, 37; against, 49.

The Index-Tribune is gaining subscribers right along in this place and vicinity and can now be seen in every public place and almost every private home.

Harry Baines, Thomas Baines and John Matthews left in the former's touring car, one day this week, for Marysville and other towns en route and will be absent the balance of the week.

Thos. Crow, who has been spending the summer at the Parente Villa, has returned to San Francisco much improved in health and will resume his old position at the Ferry news depot. Tommy is known in the metropolis as the "King of the Newsboys."

Al. Benham, the well-known drummer for the William Peck Company of San Francisco, was in town Tuesday. Mr. Benham now uses an automobile in traveling through his territory, the enterprising firm which he represents having supplied each of its drummers with a fine car in order to gain time in getting over the country assigned to them.

A crowded house greeted Billy Rice's minstrel troupe in the El Verano Villa show house last Saturday evening. It was a most shaste and creditable performance and reflected credit on Pop Rice and Mr. and Mrs. Louis Lamotte who were instrumental in staging the performance, The young men comprising the troupe were not only gentlemanly but reflected credit on their profession. The audience reminded one of the early day gatherings in this valley, as it was composed for the most part of entire families from near-by farms and dairies and not a few folks from good old Sonoma.

AN EX-"EDITOR" IS DOWN AND OUT.

Seeks Relief in the Bankruptcy Court — Result of Amateur Journalism in Sonoma.

Will O. Hocker, ex-proprietor and editor of the Sonoma Valley Expositor, filed a petition in bankruptcy in San Francisco last Saturday, with liabilities of $2,792 and assets none, and thereby hangs a tale.

Hocker, who was a school teacher by profession, and a pretty good one, too, resigned a lucrative position in the San Luis district, secured for him mainly through the efforts of the editor of this newspaper, to try his hand at the newspaper game in Sonoma. He had had no previous experience in the field of journalism and the thing looked as easy to him as rolling off a log, but like some half-dozen of his predecessors he was down and out before he actually realized it.

Hocker's experience was that of his predecessors who had entered the journalistic field here in the hopes of getting the other fellow's business away from him by cutting prices and ruining him. In this manner he might succeed in building up the business of the one newspaper on the ruins of the other. It didn't work that way, however, but we must confess that this sort of competition in a small community like this was fierce for the editor who paid his bills while his competitor eventually winds up in the bankruptcy court with his. But pshaw! why expatiate further on this episode. The fact of the matter is the Index-Tribune and "old Granice" are in debt to nobody in this wide world, except for personal favors, and are actually doing business at the same old stand and the subscription price of the paper still remains at $2.50 per year, which is about right in this limited field if one expects to pay his honest debts and be square in his business dealings.

Mrs. Mollie R. Taylor Buys the Garniss Ranch

Mrs. Mollie R. Taylor of this valley has added to her real estate holdings here by buying the Garniss ranch in the northwestern suburbs of town. The ranch consists of 55 acres adjacent to this town and lots 14, 15, 16 and 17 in the Haraszthy tract inside the city limits. The consideration named in the deed is $15,150. Mrs. Taylor is an enterprising women with ample means and will greatly improve the property.

California State Library—Appeal

Every loyal citizen of California should be interested in preserving the history of the state for those who are to follow after. We therefore ask every pioneer, each native son and daughter, all of the people east, west, north and south, to take part in collecting and placing in the California Department of the State Library, material of a historic nature. For the student of political history we desire ballots, political dodgers, leaflets, cards and cartoons. For those investigating the early commerce and economic conditions, old account books, invoices, shipping list and business letters. For the historian, books, pamphlets, newspaper files, manuscript narratives, diaries, public correspondence, autograph letters of pioneers and other prominent citizens, in fact original documents of every kind together with pictures of the old mining towns, of San Francisco, Sacramento, Los Angeles and other cities, of historic landmarks and portraits of all prominent people in all the walks of life.

Visit your long neglected attic and send us what you con find that will add to this material.

It is hoped that the state will, in the near future, build a fireproof building for its library, in anticipation of which we are receiving donations and loans of articles suitable for a meseum of California relics. Send what you have for this purpose, or at least put it aside to be placed in custody of the state when the museum is an established fact.

The State Library invites all readers of this paper to come to Sacremento, visit the library and inspect its collection of California material. We are sure it will interest you and inspire you with a desire to add to its volume and usefullness.

If further information is desired write to the State Library, Sacramento.

TRAGIC DEATH OF MISS EMILY CREPIN

Falls From High Cliff at Pacific Grove Saturday Afternoon—Body Recovered Two Days Afterwards.

Miss Emily Crepin, the highly cultured daughter of Dr. Crepin of Glen Ellen, met a tragic death at Pacific Grove last Saturday afternoon.

Miss Crepin was visiting her brother-in-law and sister, Mr. and Mrs. Freeborn, at their seaside home at that popular resort, and on the afternoon of her death had gone to the seashore with her relatives a short distance from the Pacific Grove Hotel. Shortly after arriving at the beach Miss Crepin was missed and a search revealed the fact that she had evidently made a misstep and plunged headlong over the cliffs, as her hat was found lodged in a cleft of rock.

On Monday the worst fears of Miss Crepin's relatives were realized when her remains were discovered floating a short distance from where the hat was found.

The news of his daughter's sad ending was broken to Dr. Crepin, the aged Glen Ellen physician, Monday evening, and he is prostrated with grief over the sad and untimely ending of his beautiful and highly accomplished girl, whose death has also cast a gloom over the entire valley.

The Amende Honorable.

In our report of the proceedings of the October meeting of the City Trustees in last week's issue of the INDEX-TRIBUNE we stated that "a communication was received from Miss Margaret More, asking the Trustees to pass an ordinance prohibiting boys under 18 years from visiting billiard parlors and playing the game." This was substantially correct, but we inadvertently omitted to mention the fact that in doing so that she submitted the request on behalf of the Home and School Association of Sonoma, of which she is the able Secretary. This was done in her official capacity. We make this amende honorable with pleasure for fear our readers might otherwise take it for granted that the young lady was "butting in" on the Trustees on her own hook. We assure them she is not inclined that way.

Contemptible Act.

Complaints have reached this office of a most contemptible act perpetrated by a number of young men in this place on farmers and others who have had occasion to drive into town the past week on business. During their absence from their vehicles tacks have been thrown on the seats of the same by these diabolical miscreants who appear to be unable to see the difference between a joke and criminal act. If caught these young men will be arrested and prosecuted.

Organize a Basket Ball Team.

At the regular meeting of the Yellow Jacket Cadets, held last Monday evening, it was decided to organize a girls' basketball team. Miss Henrietta Weber was elected captain and Ramona Granice manager. The line-up will be published at a later date.

NOT A PUBLIC HEALTH INSPECTOR

Sanitary Measures of the Southern Pacific Co. in Handling Ice for its Train Service

If you happen to be traveling over any part of the Pacific system of the Southern Pacific Company, and if you notice as your train pulls into a station, a man attired in a white duck suit, white cap and rubber gloves, do not get the impression that he is a public health inspector and that your train is liable to be delayed until he has completed an inspection, nor need you fear that the train may possibly be quarantined. That is not his duty. He is the man who fills the ice receptacles on the Southern Pacific dining and passenger coaches and he is following the latest sanitary measures that have been adopted by the corporation.

This new feature in the iceing of passenger trains was inaugurated by H. V. Platt, general superintendent of the southern districts of the Southern Pacific Company, and was first tried out on the Los Angeles division.

At each point where trains are iced, the ice is handled in absolutely clean carts, lined with galvanized iron or zinc, and the interior is scalded twice daily with steam. The ice is handled by employees dressed in white duck suits and caps, and rubber gloves, all of which are furnished by the company. Employees are required, sufficiently in advance of arrival of trains, to prepare themselves for the handling of the ice. The ice, however, is handled with rubber gloves, and from the time of its manufacture until the time it reaches the receptacle in the cars it is protected against contamination.

This new mode of handling the ice for the passenger cars of the company, tried out on the Los Angeles division, has proved so successful that it has been ordered installed on all of the lines of the Pacific system. The carts are covered with canvas at all times and are fully protected from flying particles of dirt.

Fined for Selling Liquor to an Indian.

John Mazza, proprietor of the Depot Saloon in this city, was convicted in Justice Campbell's Court last Wednesday for selling liquor to an Indian. The prosecution was conducted by Assistant District Attorney Jack Ford, while lawyer H. P. Mathewson defended the accused. Judge Campbell imposed a fine of $50 on Mazza, which he paid. Judge Campbell announced when he imposed the fine that he would be lenient on the convicted man as it was his first offense but stated that the next man convicted of a similar offense would be dealt with more severely.

Debate at High School.

There was a debate at the High School last Tuesday afternoon, the proposition being "Resolved, that Women Suffrage, the Initiative, Referendum and Recall," should be supported at the polls. On the affirmative side of the suffrage question were Miss Gertrude Britenbach, Miss Ramona Granice and Harry Lutgens. The negative side was argued by Fred. Duhring Jr. The affirmative side was given the decision by the students by a vote of 15 to 31.

Sonoma, California, October 15, 1911

California and the Government's Crop Statistics for Year 1910.

The Department of Commerce and Labor has issued its statistics relative to the leading crops for the State of California, collected at the thirteenth dicennial census, April 15th, 1910. Its report is based on tabular summaries prepared under the direction Dr. Le Grand Powers, chief statistician for agriculture in the bureau of the census. The figures are preliminary and subject to slight revision later, when a few farms whose returns now incomplete, will be included in the final tables. It is not expected, however, that these additions will materially modify the amounts or rates given in the statement.

The leading crops of the State for 1909, ranked in the order of valuation, were: Hay and forage, $42,187,000; barley, $17,185,000; wheat, $6,324,000; dry edible beans, $6,296,000; potatoes, $4,879,000; oats, $2,637,000; hops, $1,731,000 and corn, $1,077,000.

For the decade ending 1909 hay and forage showed an increase of 263,710 acres, or 13.1 per cent. The aggregate yield in 1909 was 4,327,130 tons; the average yield per acre, 1.7 tons; the average value per acre, $16.65.

During the last ten years barley increased 165,511 acres, or 16.1 per cent. From 586,350 acres in 1879, barley rose to 815,995 by 1889, to 1,929,647 by 1899, and again to 1,195,158 by 1909. Hence, during the last 30 years barley has more than doubled. The total yield in 1909 was 24,441,955 bushels, the average yield per acre, 22 bushels; the average value per acre, $14.00.

The statistics, on the other hand, show a tremendous decrease in California's wheat product. In the decade between 1899 and 1909 wheat decreased 2,205,188 acres, or 82.2 per cent. From 1879, when 1,832,429 acres were harvested, wheat rose in 1889 to 2,840,807, but fell in 1899 to 2,683,405, and again in 1909 to 478,217. The aggregate yield in 1909 was 6,203,206 bushels; the average yield per acre, 13 bushels; the average value per acre, $13.20.

Dry edible beans have more than tripled the past ten years. From 45,861 acres in 1899 dry edible beans rose to 157,825 in 1909, an increase of 111,964 acres, or 254.1 per cent. Previous to 1899 no acreage for dry edible beans was reported. The total production in 1909 was 3,323,608 bushels; the average yield per acre, 21 bushels; the average value per acre, $39.85.

The potato product also shows a remarkable increase. From 1899 to 1909 potatoes increased 25,590 acres, 80.8 per cent. From 68,178 acres in 1889, potatoes rose by 1899 to 42,098, and again by 1909 to 67,688. The total yield in 1909 was 9,824,005 bushels; the average yield per acre 145 bushels; the average value per acre, $72.10.

In the decade ending 1909 oats increased 38,424 acres, or 25 per cent. Starting with 49,947 acres in 1879, oats rose to 57,569 in 1889, to 153,734 in 1899, and finally to 166,158 in 1909. The aggregate yield in 1909 was 4,143,688 bushels; the average yield per acre, 22 bushels; the average value per acre, $13.70.

Hops, during the decade from 1899 to 1909, increased 1,501 acres or 21.8 per cent. From 1,119 acres in 1879, hops advanced to 3,974 by 1889, to 6,890 by 1899, and to 8,391 by 1909. The total yield in 1909 was 11,994,953 pounds; the average yield per acre, 1,430 pounds the average value per acre, $206.30

Corn showed a decrease for the decade ending 1909 of 1,995 acres or 3.7 per cent. From 1879, when 71,781 acres were harvested, corn dropped to 70,303 in 1889, to 53,930 in 1899, and to 51,935 in 1909, a constant and consistent decrease. The total yield in 1909 was 1,273,901 bushels; the average yield per acre, 25 bushels; the average value per acre, $20.75.

A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and new, clean, healthy tissues. The man who is clean in this way will look it and act it. He will work with energy and think clean, clear, healthy thoughts.

He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion originate in unclean stomachs. Blood diseases are found where there is unclean blood. Consumption and bronchitis mean unclean lungs.

Dr. Pierce's Golden Medical Discovery

prevents these diseases. It makes a man's insides clean and healthy. It cleans the digestive organs, makes pure, clean blood, and clean, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs.

Constipation is the most unclean uncleanliness. Dr. Pierce's Pleasant Pellets cure it. They never gripe Easy to take as candy.

Woman Suffrage Wins

Apparent Defeat is Turned into Victory and the Majority Will Now Exceed 3000 For the Measure.

The latest returns of Tuesday's election has turned an apparent defeat for Woman Suffrage into a substantial victory for an amendment to California's State Constitution which puts the women on a political equality with the men, and in so far as this State is concerned they are now citizens in the true acceptation of the term.

The interior of the State almost without an exception voted strongly in favor of the equal suffrage cause and rebuked San Francisco and Alameda counties with their tremendous majorities against the measure, which combined aggregated 15,783 votes to be overcome by the interior counties. Unexpectedly this was been accomplished and an apparent defeat turned into victory, backed up with a majority that is constantly growing as the returns come in from the remote parts of the State, and it is now conservatively estimated that Equal Suffrage wins out with at least 3,000 votes to the good.

The amendment was carried in 47 of the 58 counties in the state. It was the vote of the farmer, miner and other horny-handed sons of toil who have given to the women of California a heaven-born right so long withheld from them, and which we are quite sure they will assume with intelligence, dignity and good judgment.

VINEBURG NEWS ITEMS

"Easy Jim" Tells in an Interesting Way all About the Week's Happenings in and About His Section of the Valley.

The burg was lively last Sunday as quite a number of people arrived on both trains.

Did you notice the rain? Well, if you didn't Minnie Madden did, as she got her auto veil wet. Too bad, Minnie.

Will Clewe, one of Sonoma's merchants, was busily engaged in shipping a carload of dried fruit from this point Wednesday last.

Mrs. Adam Gigerich and Mrs. Harry Hunter were the guests of Mrs. Fred. Dobbel at her pretty home near Buena Vista on last Thursday.

From the amount of improvements going on in this vicinity it certainly looks like Sonoma Valley is going some and it is very likely to keep on going.

Mrs. W. W. Erskine of San Francisco, after several days visit with her son at her home on the Hyde tract, returned to that city on Tuesday.

Dr. A. P. Matsen is now erecting a tank house, windmill, etc., on his place near here. Messrs. Albert Trautvetter and William Ladlee are the master mechanics doing the work and they know their business. Sure.

Messrs. Harry Dunn and Arthur Batto, two well-known business men of Vineburg, returned from a well deserved vacation on last Sunday evening, after an absence of eight days. Both gentlemen report an enjoyable trip and pleasant time.

Grape picking and wine making are now in full blast and a large number of people are employed at the different wineries and vineyards in this section and it does not look like the valley will go "dry" for some time to come. "O what's the use."

Dame rumor has started the report that in a short time there will be another bank established in the city of Sonoma. Well, taking all things into consideration it will not be a bad idea as the city is growing steadily and certainly needs another bank.

Mr. Arthur Batto returned home on Saturday evening after spending a few days visiting with Mr. August Figone of San Francisco.

John Wadsworth, the pioneer orchard man says that Jim Small voted the women way now the question is how did Jim vote. Ask Edith.

Mr. Mallenburg and Miss Ella Mitchell of the Bay city were the guests of Ed. A. and Miss Marie Mitchell at "Oak Leaf Cottage" on Sunday last.

Mr. E. Cliff of El Verano, one of the best known and most progressive poultry men in Sonoma valley, was a visitor at Batto's spur last Saturday.

Ethel Eastlake has returned from her election trip and has promised us items for next week. Now Ethel looks well, but feels a little sore that's all.

Mrs. H. A. Wicker, Mrs. Henry Lutgens and Mr. Arthur Lutgens were the guests of Mr. and Mrs. Harry Hunter at their home "The Knoll," one day last week.

All the large winemakers have started to crush grapes and expect a full yield. The Gundlach-Bundshu Co., and Dresel & Co. have a large number of men at work but Enrico Forni of the Pleasant Villa Wine Co. cannot obtain enough help, so we hear.

Ross Ranch Sold.

The Ross ranch, two miles south of town has been sold by Mr. and Mrs. W. C. Ross to L. W. Brobeck of Contra Costa county. This ranch was formerly owned by the Ehrlich family, who sold to the late Otto Muser. It was from the latter's widow that Ross purchased the ranch eight or ten years ago. It is one of the finest farms in the valley.

FOOTPADS ROB MAN AT PISTOL POINT.

Well-Known Citizen Held Up Wednesday in Front of the Methodist Church and Relieved of $24.50.

While Fred. C. Fouts, the well-known proprietor of "The Dew Drop Inn," was on his way home at 11:30 Wednesday night he was held up and robbed nearly opposite the Methodist church. Just before closing up he dumped the contents of the till, amounting to $24.50, into a small coin sack and placed it in his hip pocket, in which reposed a little purse containg $100 in gold coin upon the top of which was thrust his pocket handkerchief.

When opposite the little alley on the north side of the church he was pounced upon by two men, one of whom thrust a revolver in his face while the other placed a gun at his back and commanded him to throw up his hands. This he essayed to do with alacrity but before he could fully carry out the command the thug who was in his rear thrust his hand into his victim's hip pocket a d abstracted the sack containing the $24.50 in silver, leaving the handkerchief and overlooking the small purse containing the $100 which it effectually concealed from sight or touch.

The thugs then made their getaway with the sack of coin, much to the relief of Fouts who considers himself mighty lucky in that the hold-up men overlooked that $100 in their haste to get away with the more bulky but less valuable sack of silver.

LIGHT AND PHONE COMPANIES UNITE.

The Clear Lake Telephone & Telegraph Co. and the Sonoma Valley Company in the Deal.

The Clear Lake Telephone & Telegraph Company and Sonoma Valley Company, which supplies all the electric light and power in this valley, have consolidated and the management of both concerns will be at Santa Rosa. Fred L. Wright is the President of the former company and C. T. Ryland of this city the head of the latter company. Both companies are doing a prosperous business at the present time and the consolidation is no doubt made for the purpose of cutting down expenses.

Fatal Hunting Accident at Reclamation.

A fatal hunting accident occurred at Reclamation in the tules south of this place last Wednesday, in which Donald M. Dotters, son of Mr. and Mrs. Dotters of that place lost his life. The young man had gone hunting along the levees and failing to return home within a reasonable time a search was instituted for him which resulted in his remains being found with a horrible gunshot wound in the body. The young man evidently accidentally shot himself and died instantly.

Accident in Adler's Planing Mill

Fritz Petig, an employee in Adler's planing mill, met with a painful accident last Wednesday. While using the band saw the thumb of the right hand came in contact with the rapidly revolving saw and it was cut wide open up to the first joint. Dr. Hays sewed the wound up and his patient was upon the streets soon after, none the worse for the injury except it will incapacitate him from work for a week or two.

El Verano Notice.

Hay Market—Receipts Decreasing

Somers & Co. of San Francisco have this to say in their bulletin in regard to the hay market this week.

"Receipts of hay are gradually decreasing on the market. this week's total amounting to 3009 in comparison with 3591 tons the week previous. As before, a large portion of this hay was alfalfa which is rapidly being shipped in from the river districts by farmers who are anxious to market their holdings before the rains commence.

There is no new feature to be reported concerning the market, prices remain about the same, although the demand at present is not especially active and we do not anticipate any great activity in this respect on account of the fact that most of the consumers have some little stock on hand which was purchased at low prices, they generally being of the opinion that hay would advance and that they would save money by storing away as much as possible during the harvest season. Present conditions proves that their idea was right in that we have a much higher and firmer market now than at any time during the summer.

GLEN ELLEN TO HAVE MASQUERADE BALL

To be Given on the Evening of Oct. 21st by Mr. and Mrs. Morris Levy of the Mervyn Hotel

Glen Ellen is to have a grand masquerade ball on the evening of Saturday, Oct. 21st. It will be given by Mr. and Mrs. Morris Levy, the popular owners of the Mervyn Hotel, which is sufficient guarantee of a big turn out of the party-going people of the Sonoma Valley.

One of the features of this social event will be the awarding of handsome prizes to both ladies and gentlemen for the best sustained characters. The music will be furnished by Mrs. Berry's orchestra and an admittance fee of 50 cents will be charged. There will be a big delegation of Sonoma people at the ball, a number of whom have already ordered costumes for the same and will compete for the prizes.

Faithful Service Appreciated and Rewarded

As a mark of appreciation of the work of faithful employees of the Pacific System the Southern Pacific Co. officials today announced that free annual transportation would hereafter be granted to the engineers, conductors and station agents who had shown a marked interest in their work for a period of ten years or more. Those receiving the annual transportation must show a clear record for twelve months prior to January 1st of each year.

The engineers, conductors and station agents who are credited with a continuous service of from ten to fifteen years are to be granted annual transportation over the districts to which they are assigned. For fifteen years service and over, annual transportation for an employe and wife over the assigned district of the employe, is granted. For twenty years service and over free annual transportation for the employe and the dependent members of his family, over the line of which their division forms a part. will be granted.

Annual passes to those engineers, conductors and station agents who have served the required number of years and have shown a marked interest in the welfare of the Southern Pacific Co., were sent out from the general offices of the railroad company in San Francisco yesterday. Several hundred of the annnal pasteboards will be in the railroad mail today and following their receipt and endorsement all that will be necessary for the owners to do in order to travel over their divisions will be to jump on the train and show their annual. The Pacific system, over which the order is effective, includes all of the Southern Pacific lines north to Ashland, Oregon, east of Sparks, Nevada, and south and east to El Paso, Texas.

CLEVER WOODPECKERS.

Methods of These Wise Birds In Securing a Supply of Food.

Many birds show very great intelligence, but the wisdom of the woodpecker is certainly well worth careful study. Some persons are of the opinion that reason is no more than keen instinct, but there is a difference when we come to study some of the habits of a few of the more intelligent birds.

The woodpeckers that inhabit some of the western wooded districts, and especially in sections of California, show a wonderful reasoning power. They actually plan for months ahead for what they consider a very delicate morsel of food. They provide certain food for a season when that particular kind is very scarce, and they make the work of securing it quite easy too.

While acorns are falling in the autumn months the woodpeckers climb all over the trunks of trees and peck hundreds of small holes in the wood. They carry acorns to these cavities and in some manner pound or push them into the holes they have made, with the point of the acorn in the hole, leaving exposed the larger end of the acorn.

Months after, when winter has passed and the spring has come, these woodpeckers return to the scene of their autumn labors, and there in each acorn they find a nice plump worm feeding on the kernel of the acorns they had placed in the holes in the trees. The birds flit from one acorn to another, peck open the shell and extract the delicious morsel of food. The birds evidently knew the worms would be there.

Men who have watched the work of these birds while placing the acorns in the holes they made in the trunks of trees declare the birds will carefully examine an acorn, and if it is found to be one that promises worm life in the months to follow it is carried to the cavities and deposited, but if the acorn is a perfectly sound one the birds will discard it and pick up another.

Most acorns, like chestnuts, are polluted with a germ in the earlier stages of the nut's life, and this germ hatches out a worm in the very flesh of the nut and the meat is food for the worm.

It is very evident the smart woodpeckers know all this, and much more, and they simply reason that it would be wise to secure a plentiful supply, and this is the reason they are so busy pecking the trees full of holes. Each hole will hold an acorn, and each acorn will contain a worm.

It is said the food supply of these birds would be quite scarce at the spring season if they did not resort to this method of storing away a good supply of meat for that season. — Philadelphia North American.

The Worm In the Chestnut.

A physician explains how the worm gets into the chestnut. When the nut is still green an insect comes along and, hunting a warm place in which to have its eggs hatched, lights upon the green chestnut and stings it. At the same time it deposits some of its eggs in the opening thus made. The chestnut begins to ripen, and at the same time the eggs are hatching. The insect selects chestnuts as a place for depositing its eggs as being the best adapted place by instinct. The floury matter in the nut turns to sugar, and sugar contains carbon, which produces heat.

Needed Time to Settle.

Landlord (to tenant)—Good morning, sir. Fine day, sir. Just called round to see if it would be convenient to settle your quarter's rent.

"Do you know, landlord, that none of the doors in this house will shut?"

"New house, sir. New house, you know, takes time to settle."

"Ah, then, there's a pair of us. I'm a new tenant. It takes time for me to settle, too. Good morning. Call again."

Hardly a Compliment.

"Some of your speeches," said the cynical friend, "make me think of a mathematical marvel I once knew."

"In what way?"

"He would dispose offhand of any problem you gave him. Nobody in the crowd was able to say whether he got the right answer, and it really didn't seem to make much difference anyhow."—Washington Star.

Sonoma Valley.

Having purchased the above cash store I will conduct the same with an entire new stock of goods in the general merchandise line. My motto will be cash, quick sales and small profits.

The office of the Lafague laundry of San Rafael will remain in its present location as I have secured the exclusive agency in the valley for the same.
